

FOR IMMEDIATE RELEASE

**SANDERSON PIPE ANNOUNCES TEXAS UNITED PIPE ACQUISITION
COMBINED COMPANY TO BE NAMED SANDERSON PIPE**

CLARKSVILLE, TENNESSEE (October 1, 2019) – Sanderson Pipe Corporation, a regional manufacturer of plumbing, irrigation and waterworks PVC pipe, today announced that it will combine with Texas United Pipe, Inc., a regional manufacturer of plumbing and irrigation PVC pipe. The companies have been operating separately under common ownership and senior management since May 1st of this year. The transaction is expected to be completed by the end of fourth quarter 2019 and will result in Texas United Pipe, Inc. becoming a wholly-owned subsidiary of Sanderson Pipe Corporation. Products manufactured by the combined companies will be marketed as Sanderson Pipe.

“Texas United Pipe has a strong history and well-established presence in the Texas, Oklahoma and Louisiana plumbing and irrigation markets,” said Eric Howard, President of both Sanderson Pipe and Texas United Pipe. “We are very excited to announce the combination with Texas United Pipe. With production facilities in Texas, Kansas, Tennessee and Florida, the Sanderson Pipe companies continue to expand their footprint and presence in the PVC pipe market. We are well positioned to grow the business by focusing on the basics of producing quality product, being easy to do business with, and delivering orders on time.”

About Sanderson Pipe and Texas United Pipe

Sanderson Pipe Corporation, based in Clarksville, Tennessee, is proud to supply PVC pipe to the plumbing, irrigation, municipal and wastewater markets throughout the Southeast and Midwest. Since 1998 Sanderson Pipe has focused on manufacturing quality PVC pipe while providing exceptional customer service. With production facilities in Kansas (Pittsburg), Tennessee (Clarksville), and Florida (Sanderson), Sanderson Pipe manufactures PVC pipe from ½” to 18” in diameter.

Established in 1990, Texas United Pipe, Inc. has supplied quality PVC pipe to the Texas, Oklahoma and Louisiana markets with a strong commitment to customer service. Located in Houston, Texas United Pipe has the ability to manufacture a broad range of plumbing and irrigation pipe in ½” through 8” diameters.
